

SMART DIGITAL WATER TESTING

WIRELESS CONNECTIVITY FROM POOL-TO-PALM

INNOVATIVE

Only handheld photometer to communicate with a smartphone

WATERPROOF

IP-67 rated and it floats

LOCATION

First handheld photometer system that's GPS enabled

SMART

Uses the latest Bluetooth® Smart low energy green technology

INTEGRITY

Reduce human error by incorporating results with time, date and location stamp

CUSTOMIZE

Only download the tests you want

LOW COST

Meter integrates smartphone technology by harnessing its computing power

CONVENIENT

Easy purchasing of supplies

ACCURATE

In app updates for best accuracy

SOCIAL

Save, manage and share your results digitally

Compatible with:
Apple iPad (Mini, 3rd & 4th gen)
Apple iPhone (5s, 5c, 5 & 4s)
Apple iPod touch 5th gen

POOL-TO-PALM

WIRELESS CONNECTIVITY FROM POOL-TO-PALM

The new **eXact® iDip™** by Industrial Test Systems, Inc. is the first product in the recreational water testing market to provide complete wireless connectivity between the iPhone®, iPad®, and iPod Touch® and a handheld photometer. Data is seamlessly transferred between the two devices when paired with the eXact® iDip using Bluetooth® Smart wireless technology. The application stores the test results history of multiple pool, spa and water sources.

Data can be shared via email and the built-in GPS feature allows for easy retrieval of water locations. Pool technicians will appreciate the ability to store customer data, eliminating repetitive data entry tasks while saving time and money.
