

Portable Evaporative Cooler WC-1HPNPBI

Product Description

WayCool® portable evaporative coolers use the natural cooling process of evaporating water to reduce temperatures up to 30°F at a fraction of the cost of air conditioning. WayCool blows cooled air in a focused narrow stream at high velocities long distances to provide greater cooling for employees, customers, guests, equipment and livestock both indoors and outdoors!

Features

Approximately 75% lower energy consumption and 50% less expensive than the equivalent capacity portable air conditioner

Automatic low water levels shut-off to prevent pump damage

Built-in water reservoir for standalone use or connect to garden hose for continuous use

Specially treated cellulose evaporative pads for extensive pad life

1 hp dimensions: Base 33" x 33" x 52" tall; 24 gallon reservoir

Two year warranty

Made in the USA
