

Detective, the transportable detector, is the solution to all your temporary area and fence protection needs.

Used singly or linked together,
Detective gives a loud and clear
alarm providing effective warning
of gas hazards on an area basis.
The rugged water and impact
resistant design and clear
information display make Detective
the ideal choice for your
transportable gas detection needs.

Superb pedigree

 Detective is based on the highly successful Triple Plus multi-gas monitor which has sold over 40,000 units worldwide

Extremely loud and clear alarms

- Wailing omni-directional siren, 101 dBA
 @ 1 metre
- High intensity LED clusters provide visual indication of alarms
- All linked Detectives indicate an alarm sensed by any one unit
- Units actually sensing alarm have faster LED flash
- Audible and visible confidence blip

Uniquely rugged, tripod construction

- Detectors are fully protected, even if device is overturned
- Raised detectors prevent water ingress
- Easy to set up
- Light, stackable design for easy transportation

Large four gas, simultaneous text display

- Clear information, allows identification of gas hazard
- Easy tracking of multiple hazards

Expected sensor life	Flammable 5 years, Toxic 3 years, Oxygen 2 year minimum.		
Audible alarms	Wailing, omni-directional siren, 101 dBA @ 1 metre. Confidence blip (selectable). Continuous tone for low battery.		
Visible alarms	Four large, top-mounted red LED clusters and single red LED on control panel. In alarm mode LED clusters flash in pairs in quick succession and control panel LED lights on those Detectives sensing the hazard. LED clusters of linked Detectives repeating the alarm, flash more slowly. Slow flashing green LED indicates normal working. Rapid flashing green LED indicates low battery.		
Display	2 lines of 24 characters, dot matrix high contrast LCD with back light operating for 30 minutes. Values and units for up to 4 gases displayed simultaneously at current, TWA or peak levels. Low battery, real time and elapsed time, calibration and configuration data also displayed.		
Datalogging	Adjustable sample rate, 100 hours @ 1 minute sample rate (maximum 6000 data points per channel).		
Battery	6 V, 4.8 Ah Sealed lead acid battery pack		
Battery life	Standard instrument: 24 hours minimum, depending on sensors.
