Specifications

The S45-1964 dust cover retrofits onto existing Bradley ABS plastic eyewash bowls. Cover protects entire bowl to keep contaminants, dust and debris from the eyewash area. Dust cover swings back and out of the way when push handle is activated.

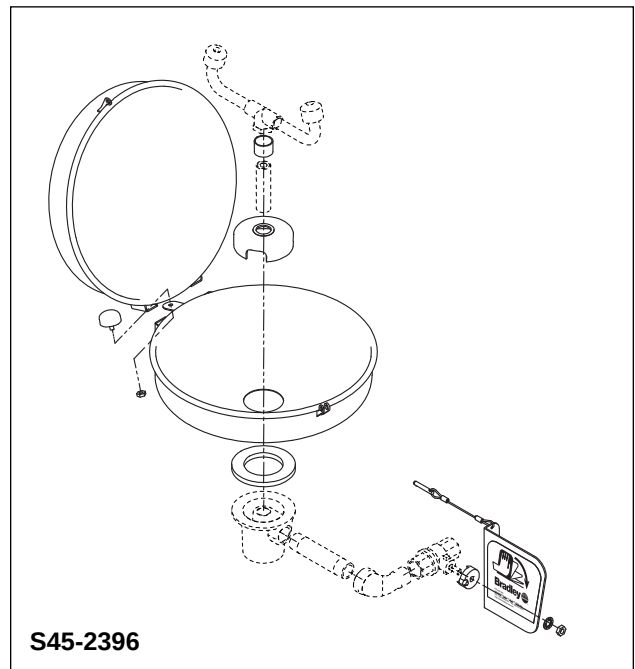

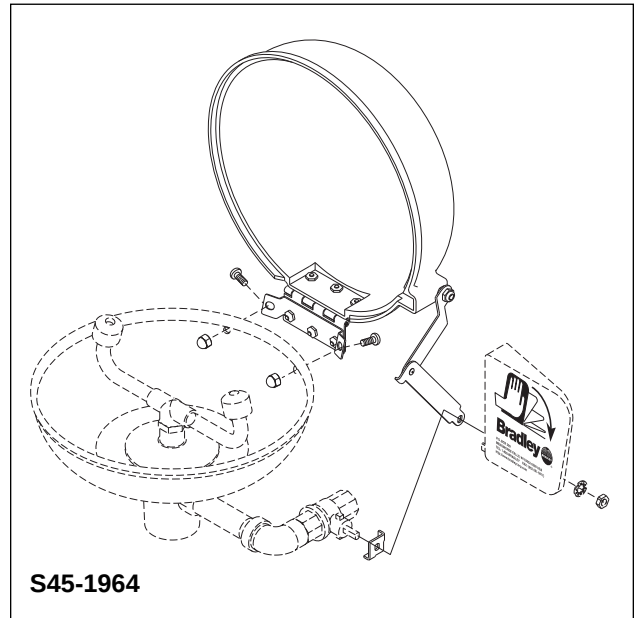

The S45-2396 dust cover with bowl retrofits onto existing Bradley stainless steel eyewash units. Cover protects entire bowl to keep contaminants, dust and debris from the eyewash area. Spring-loaded dust cover swings back and out of the way when stainless steel push handle is activated.

Construction

The S45-1964 retrofit dust cover is constructed of impact-resistant ABS plastic. Hinge and handle linkage are constructed of corrosion resistant stainless steel. Includes all components necessary for installation. Cover measures 10-3/8" (264mm) diameter x 3-1/2" (89mm) high.

The S45-2396 retrofit dust cover is constructed of corrosion-resistant brushed stainless steel. The stainless steel dust cover and spring-loaded hinge are welded to a stainless steel bowl for increased durability and vandal resistance. The stainless steel activation handle includes a tethered activation pin. The 1" diameter bumper is composed of soft black 1/2" thick rubber. Includes all components necessary for installation. Cover/bowl assembly measures 10-3/4" (273mm) diameter x 6" (52mm) high when closed.
